Side by side

Dexter Jones' Circus Orchestra was formed back in year 2000 in Umeå, Sweden by Tia Marklund, David and Daniel Israelsson, Håkan Dalsfelt and Kent Jonsson. The debut record "The Losers are Back in Town" was recorded in 2003 and released at Freebird records as a 7 inch vinyl. The album received extremely good critique from stonerrock circles.

The work with a full length album started shortly after that and was presented in 2004, with 10 dynamite songs on the same label as before and this time things started to move for the band. DJCO was booked at Eurosonic festival Jan -05 and also did two smaller European tours together with the cult band Hypnos 69.

The album was rewarded as "The album of the year" by many well known music journalists all over the world and was also contributing to part of a few collection records as "The Ultimate fuzz collection" (Fuzzorama records).

During 2006 there were some changes made in the band. Kent and Håkan was replaced by Björn Billgren and Fredrik Jonsson and an already recorded EP was released in March last year. That was followed by tours on both coasts of the USA, with performances in Knitting Factory (NYC) to Safari's Sam in Los Angeles. The band was also booked to the yearly SHOD.fest in Phoenix, Arizona and a bunch of venues in Sweden as well.

During all this the band also managed to record a new album, as usual in Ballerina Studios in Morby, Västerbotten/Sweden.

A record deal was signed with Fuzzorama records in Jan 2007

The record will be released by Plastic head distribution throughout all Europe.
